To: Former Management & Production Personnel, Dallas Film Processing Laboratory (Per appended list)

Re: Draft Report- Part 3 of Study 1 about the Processing and Handling of the Zapruder Films of the JFK Assassination Processed by the Dallas Laboratory on November 1963.

Gentlemen;

Its hard to believe that its been almost a year since I stopped by Dallas and had the good pleasure meet with Dick Blair, and Phil Chamberlain, and to talk with most of you. The minutes of our July meeting was sent to all of you, and Mr. J. Kenny Anderson reemphasized his recollections of that fateful day. Since that time I have been busy working on other studies related to the Zapruder film including B&H Model J printer and B&H Model 414PD camera characteristics. Also, I had the opportunity to visit the National Archives and review the Zapruder film and two of the copies made by JAMIESON which clarified and supported some of our assumptions.

Our goal remains the same: To provide a factual description of the handling and marking of the films processed by Kodak November 22, 1963. Please review the enclosed draft of "your" part of my report to the Assassinations Records Review Board. ***Please do not copy or reproduce the photographs.*** If corrections or additions are indicated, please "mark-up" your copy and I'll replace it with a corrected version. Thank you for your continued support.

Sincerely,

Roland J. Zavada
Consultant for Kodak

cc: J. E. Grizer
W. Lane
J. Toner

Note: The referenced draft of Part-3 of Study 1 is now part of the final report. RZ

Review of June 26, 1998 draft of Part 3 of Study 1
EKCo. Report to the ARRB

Gentlemen: You are encouraged, by July 10, to comment by letter, by "marking-up" the enclosed draft, by telephone or by use of this checklist.

Text of Part 3, Study 1.

----- The text fairly represents my beliefs and recollections about the film handling, marking and processing of the Zapruder films and related to Mr. Zavada.

----- The text would be improved by additions or corrections that are appended by marginal corrections to the draft or my enclosed comments.

Dallas Contacts List

----- My name, address, 1963 job title and brief description of my role are stated correctly. (Page 30 of report)

----- Corrections to the "Dallas Contacts List" are enclosed.

Dallas Processing Laboratory 1963 Organization Chart

----- The organization chart, page 31, provides a fair conceptual representation of the Dallas Lab's management structure.

----- Corrections and/or additions to the 1963 organization chart are enclosed.

Compendious Notes of Telephone Conversations

----- To the best of my recollection, my conversation with Mr. Zavada is fairly represented.

----- I have made corrections or additions to the notes to reflect my best recollection of what was said.
